	1" = 400' ³		US Only	\$44.40 / km ² \$115.00 / mi ²	NA	NA	NA	NA

¹Subject to the availability of DEMs and GCPs.

²Customer supplied DEMs & GCPs.

³Orders under 200mi² are subject to a \$4500 mobilization fee. Customers providing their own DEMs/GCPs will receive a 20% discount from the list price.

2. End User License Agreement

License Type	
Single Organization	Included
Multiple Organization	+10%
Civil Government	Included

3. Order Priority

Order Priority	Uplift	Time between order placement and start collection date	Image Acquisition Window
Standard	Included	5 days	15 -365 days, typically 90 days
Priority ¹	+ 50%	4 days	7 - 365 days, typically less than 90 days
Rush ²	+ 100%	48 hours	1 - 14 days

¹Priority Tasking uplift is not a tasking fee, and will be refunded if DigitalGlobe is unable to successfully deliver an order.

²For Rush Tasking, customers are required to accept an image even if it does not meet the cloud cover or image quality specifications. Those images not meeting these specifications will receive a 50% discount off of the originally quoted price.

Pricing

- The price for End User License Agreement (EULA) and Order Priority are applied to the Product Base Price.
- Example: 1) select product option and product type; multiply the number of square kilometers with price per square kilometer to get the Product Base Price 2) apply license percent uplift to the Product Base Price, 3) apply order priority percent uplift to the Product Base Price. Add prices for 1, 2 and 3 for Total Price.

Notes:

- Minimum order for Basic Imagery (both archive and tasking) is 1 scene (272 km²).
- Minimum order size for Standard Imagery is 25 km² for archive orders, 64 km² for Standard and Priority Tasking, and 100 km² for Rush Tasking orders.
- Minimum order size for Orthorectified Imagery is 100km² for 1:12,000 and Custom products, 150km² for 1:25,000 (both archive and tasking orders), and 25km² (archive) and 64km² (tasking) for 1"=400'.
- The "Bundle" product option includes both panchromatic and multispectral imagery.
- Color products are 8-bit or 16-bit, 3-band products.
 - Natural Color (Blue, Green, Red).
 - Color Infrared (Green, Red, near infrared).
- Cloud cover specification for all tasking orders is ≤20%, with the exception of 1"=400' orthorectified products, which are cloud free.
- Off-nadir options are 0° - 15° or 0° - 25°, with no price uplift.
- A Single Organization is defined as multiple users solely within one corporation or government agency at multiple locations within a single country.
 - One corporation (but not subsidiaries).
 - One county government (all departments).
 - One federal agency (below cabinet level in the U.S.).
 - One state or provincial government agency.
 - One city government (all departments).
- A Multiple Organization licensee must meet the conditions outlined in one of the following statements:
 - Includes up to a total of 10 non-federal government agencies or single commercial organizations (not including subsidiaries), or combinations of both, as long as the entities are identified up front at the time of order and are in the same country.
 - Includes up to two distinct levels of government entities (e.g. city and county, state and county, or one federal agency (below cabinet level in the U.S.) and state, or similar combinations outside the U.S.).
 - Includes single commercial organizations with up to 10 subsidiaries in multiple locations in a single country.
- The Civil Government license offers an unlimited number of Federal, State, and Local government organizations access to QuickBird Imagery,
- Standard delivery (2 to 3 days, depending on location) and media is included in product price.

Example:

- Standard Imagery (64 km²), Multispectral, Multi Org, Standard Tasking
 1. **Product Base Price = \$1,600** (\$25 * 64 km²) Licensing Uplift (10% for Multi Org) = \$160
 3. Calculate **Total Price = \$1760** (\$1,600 + \$160)
